

## ADMISSION OF WOMEN ANNOYS BAPTIST MEET

Rule of Female Silence Decreed Abolished by Last Year's Convention.

## CHURCH UNION IS AN ISSUE

Baptist Church Government Minutes Against Plans of Merger Denominations

ATLANTA, Ga., May 6.—The annual Southern Baptist convention meeting here May 14 to 19, women for the first time will be admitted as delegates on an equality with men and their sessions are indicated.

Southern Baptists were greatly displeased at the ruling of the war department at Washington in connection with camp posture testing with other evangelical denominations that they were discriminatory. Evangelist said it is expected the convention will make known its attitude toward the policy of the war department.

Much interest is being manifested by the denomination as to the outcome of the drive for missions undertaken after the convention at Hot Springs, Ark., last week, which has made its hearts to plan work on a basis of \$12,000,000 for the present year, \$10,000,000 for future missions and \$1,000,000 for foreign missions. That is 25 per cent greater than the sum raised last year. Starting now, the south have been active and the outlook is that the money will have been raised when the convention meets.

### Women Delegates

The admission of women as delegates on an equality with men is being watched with interest. For more than 75 years the convention has maintained the policy that women should be silent in the churches when men are present. Many women oppose the change, believing their work should be confined to the individual churches. Many men oppose their admission on the ground that their membership of the convention already is too large and should be divided.

A call for an all-American Baptist convention at an early date probably will be advocated by the Southern Baptists in view of the widespread agitation on the question of uniting the various denominations and federating the churches. The opinion among some Southern Baptists is that they cannot conscientiously enter into any such movement and that some authoritative body of all branches of the denomination should be constituted to pass upon the question and set forth the Baptist view.

Final steps toward the establishment of a negro Baptist theological seminary, undertaken by a joint commission from Southern, Northern and negro Baptist conventions, are expected to be taken at the coming sessions. Memphis, Tenn., in all probability will be the location of the proposed seminary and the initial cost probably will be not less than \$150,000.

### Church Union Gaining

Indications are that a large number of churches of Missouri will withdraw from the Southern Baptist convention and unite with the southern Lutherans at the coming sessions. There has been a division among the Baptists of Missouri, where some churches belong to the northern and some to the southern convention. A movement has been on foot for some time with a view of having all belong to one convention and the trend of the movement has been toward the southern convention with which it is claimed, most of the churches have been in closer touch.

The interests of the country churches will be given careful consideration this year.

Among the speakers will be men who have served in the great war. Dr. George W. Truth of Dallas, Tex.; Dr. Henry A. Porter of Atlanta; Dr. M. E. Dodd of Shreveport, La.; Dr. J. C. Jackson, president of men who have been in service in the trenches and with the Young Men's Christian association will be present. All told, 5,000 and 6,000 people are expected to attend the sessions.

Dr. J. B. Gamble of Fort Worth, Texas, is expected to be re-elected president and Dr. High C. Moore of Nashville, Tenn., re-elected as one of the secretaries. Another secretary in the last list is Oliver F. Gregory, who will be elected. Dr. Gamble, who was a confederate soldier, served on the staff of General Robert E. Lee, will preside and address the opening session.

Dr. L. R. Scarborough of Texas, chairman of the committees appointed last year to work for the filling of the large number of vacant pastorates and to stimulate interest among young men to study for the ministry, will report to the convention.

### SHOVED INTO STREETCAR BECAUSE OF TIGHT SKIRT

### LEGAL

PHILADELPHIA, Pa., May 6.—In the shower room of a local swimming place, there was a disturbance of a local young boy recently. The young lad was wearing a skirt of the latest style which resembled a "V." The skirt was so tight and the crowd so large, that it was simply impossible to fit the garment above the waist. The boy, however, was cleaner, seeing the difference, ran to the rescue. He held his skirt between the car step and the street and with this improved step, rapidly ascended, and the boy went up the stairs, with passengers smiling broad smiles.

### HAS EYE REMOVED WITH ONLY LOCAL ANESTHETIC

PHILADELPHIA, Pa., May 6.—Some of the same kind of scenes that took place in the Argonne were displayed here recently by James Kroll, a 22-year-old member of the Argonne, who had submitted to the removal of his eye without either only a local anesthetic being used. "No ether for pain," said Kroll to a hospital physician. "I've had all the life I ever wanted in my eye, so I removed it, which had been injured by shrapnel, and a few hours later Kroll went home."

### Smart Beach Cape Has Hat to Match

### Pity the Blind.

LONDON, May 6.—The forthcoming social session in London is going to be based on the motto, "Pity the blind." According to the London Herald, the new dance troupe from Paris will show the audience "strolling as far as the eyes can see, and even more than eyes can see."
